## A HALT!

Master Workman Powderly is Aroused.

He Orders a Cessation of Strikes, Boycotts, and the Inauguration of New Unions,

And Harsh Condemnation Against Dragging Politics and Politicians Into the Knighthood.

### A GENERAL

Strike is Threatened Over the United States.

By Telegram to THE SENTINEL.  
St. Louis, March 26.—Chairman Martin Irons says the strike will probably extend throughout the whole United States. Not only railroad employees will be called out, but an order will go out to all Knights of Labor in the country regardless of occupations. The Knights of Labor must be recognized. The order will be given, if matters are not settled within a few days.

### POWDERLY'S MANIFESTO.

St. Louis, March 26.—General Master Workman Powderly has issued a secret circular to the Knights of Labor of America which has just been made public. The address opens with an order to cease initiating new members until the relations of capital and labor shall become less strained than at present. He says it is not fair to the older assemblies to bring in new members, pick up their quarrels as soon as organized and have them expect pecuniary aid. He warns against useless strikes saying: "You must submit to injustice in patience for awhile longer." He cautions against receiving into their ranks employers and warns Knights that the politician is planning night and day how to catch the Knights of Labor for the advantages of himself and party and adds that to use the name of the order in a political contest is criminal and must not occur again. He says no order will be issued to strike for the eight hour system May 1.

He continues: "While I write a dispatch is handed me in which I read these words: 'They discharged our brother and we struck, for you know our motto is, 'an injury to one is the concern of all'. Yes, an injury to one is the concern of all, but it is not wise to injure all for the sake of one. It would have been far better to continue work and properly investigated that matter, bringing it before every known tribunal than to have struck." In conclusion the master workman says: "One of two things must take place, either the local and district assemblies of the order must obey its laws or I must be permitted to resign from a position which obliges me to play one part before the public and another to our members. I say to the world: 'Knights of Labor do not approve of it or encourage strikes, and in one day dispatches come to me to come to Troy, N. Y.; Manchester, N. H.; Chicago, Cincinnati, Lynchburg, Va., Springfield, Mo., and Montreal. It is impossible for a humane nature to stand the strain any longer. I must have the assistance of the order or my most earnest efforts will fail. Will I have it? If so, strikes must be avoided, boycotts must be avoided. No move must be made until the court of last session has been appealed to. Threats of violence must not be made, politicians must be hushed up or driven out, and obedience to the laws of knighthood must have preference over those of any other order. If these things are done, the next five years will witness a complete emancipation of mankind from the claws of monopoly. In our members we require secrecy, obedience, assistance, patience and courage."

### WABASH SWITCHMEN STRIKE.

The switchmen at the Wabash yards have struck, being ordered out by the Knights of Labor.

### TROUBLE AT EAST ST. LOUIS.

At East St. Louis the yardmasters of the different roads have been attempting to make up and start out freight trains but have in every instance, been prevented by the striking switchmen. The coupling pins are removed, switches reversed, trains run upon the wrong tracks, and in some instances the yard masters have been forcibly restrained.

### A POINTER FOR FORT WAYNE.

The Knights of Labor at Toledo, Ohio, who had planned to place a special ticket for city officers in the field, received a

letter Thursday night from Grand Master Workman Powderly, warning them to drop politics at once, or they would be expelled from the order.

### A TRAIN STARTS.

St. Louis, Mo., March 26.—The Missouri Pacific officials, with the aid of a large police force, succeeded in starting a freight train of eighteen cars.

### TROUBLE EXPECTED.

El Paso, Texas, March 26.—Trouble is again brewing among the brakemen and other freight employees of the Southern Pacific. Another strike may result any day.

### STRIKE AT BROOKLYN.

New York, March 26.—The employees of the Brooklyn Broadway street car lines struck this afternoon.

### TRAIN DITCHED.

St. Louis, March 26.—At Pacific, Missouri, about fifty miles distant, an accommodation train was ditched by the strikers this morning. No particulars have been received. An engine and tender carrying twenty-five detectives with Winchester rifles has been dispatched thither in anticipation of a conflict between the authorities and the strikers when the freight train sent from here shall reach that place. Officials of the Vandalia and Burlington railroads succeed in sending out two freight trains this afternoon.

Specials say the Missouri Pacific officials have succeeded in starting freight trains in several instances without interference.

### FRIGHTFUL OUTRAGE.

Mrs. John L. Boshet Brutally Outraged by a Negro.

This morning a brutal looking negro called at the residence of John L. Boshet, in Aboit township, and, addressing Mrs. Boshet, inquired if another negro worked about there. She had scarcely replied in the negative when the fellow seized and most foully outraged the lady. Her husband and son were absent at work for a neighbor, and the smothered cries of the woman were unheard while the scoundrel accomplished his purpose.

The black fiend fled the premises after threatening Mrs. Boshet's life and for a few moments hovered about the house to intimidate her. As soon as she dared, Mrs. Boshet called her husband and the neighborhood was aroused. Quicker, almost, than it takes to tell it, a messenger was sent to the sheriff's office here and a posse of armed farmers are scouring the country in search of the fugitive, who will be lynched by the enraged populace if caught.

The outrage was committed about 9 o'clock and the negro had two hours the start of his pursuers.

### SOROSIS' PRESIDENT.

A Cultivated Woman and a Wealthy and Successful Farmer.

PHILADELPHIA, March 16.—At the annual election day in March, Sorosis, the famous ladies' club of New York, departed from its usual custom and changed its president. Jenny June Croly had been the graceful and efficient presiding officer for ten years previous. Sorosis clings to good officers when it finds them.

The lady who takes Mrs. Croly's place is Mrs. M. Louise Thomas. She is one whom it is richly worth while to know about.

She is a fine, dignified-looking woman, with dark hair and eyes. She looks about 50 years of age.

When asked for a sketch of her life, Mrs. Thomas replied: "I never did anything worth telling, and I never wrote anything worth reading. That is a fact. I have tried to do both, to be faithful, and I know I am industrious and persevering, and love animals and nature, and humanity; but, now, is one going to dissect one's self and lay it all before the world?" However, Mrs. Caroline A. Soule, a friend of this strong, gentle woman, has written an admirable sketch of her, from which I have gathered a few facts. She quite underrated herself in saying she never did anything worth while. Mrs. Thomas is best known to a large circle as a successful bee-keeper. Her husband, Rev. Abel C. Thomas, was a minister of the Universalist denomination, and she herself is a forceful and interesting speaker and enthusiastic worker among the Universalists.

Mrs. Thomas accompanied her husband and shared his toils and fortunes in many fields of labor. During the war she worked unceasingly for the sick and wounded soldiers in the hospitals of this city. In this time she wrote thousands of letters for them with her own hand. The close of the war found both herself and her husband broken in health. They retired to a farm, hoping to find in country life a fountain of rejuvenation. They finally bought a farm at Tecumseh, on the Delaware, just above this city. Here a living had to be made, and made off the land.

Mrs. Thomas set herself to this task. She made the acquaintance of her neighbors, examined their crops, their flocks and herds and studied their methods. From the first she had the whole management of the farm. Her husband was an invalid and died some years ago. The lady whom Sorosis has just selected for its head is a most successful business woman. She not only learned how to make a living off the farm, but she has, entirely by her own efforts, laid up a handsome competency. The secret of it all is that whatever she undertook she did not rest until she learned to do it a little bit better than anybody else. She sells honey and bees and butter and berries and eggs and other products of her farm. She is said to have one of the finest small herds of full-blooded Jersey cattle in the country. They commanded high prices when sold. She has large and lucrative poultry yards and her country home, on the Delaware, is lovely and hospitable. In the winter Mrs. Thomas is usually at her other home, at Fordham, in the edge of New York city. Strange to say, although she has been so successful in rural pursuits, she never lived in the country at all before she took her farm. It shows what brains and perseverance can do.

### A Fishing Poem.

"Again the vernal equinox is drawing near a focus, And the bullfrog and the blizzard will trade places on the bog, And the crocus and the locust will begin their hocus pocus, And the gentle goddess Ceres will be lying round inecor. Soon again the weary merchant will lay off a day for fishing, And with grub, grubs, frog and tackle will set forth at dawn of day, But in spite of all his efforts and his almost witching wishing, He will only carry homeward what the Jug first took away."

### CHARLES McCULLOCH.

The above poem was written and dedicated to Joseph M. Clark, the renowned West lake and Barbers lake fisherman, and is wonderfully true to life.

No bad effect; no poison in Red Stag Cough Cure. It is a safe, sure cure.

## IT IS SAD

Secretary Manning is Unimproved To-day,

And That He Will Not Again Assume His Duties in the Treasury.

Rumors of His Successor Are Circulated—Mr. Manning's Ailment is Described.

### SECRETARY MANNING.

He is no Better To-day—Talk of His Successor.

By Telegram to THE SENTINEL.  
WASHINGTON, March 26.—Dr. Hamilton said to-day he was certain that Mr. Manning's condition showed no improvement since yesterday.

Rumors regarding a change in the treasury department arise, probably from the almost general impression that Mr. Manning will never resume his duties of that office, even in event of his complete restoration to health.

WASHINGTON, March 26.—The son of secretary Manning said at eleven o'clock to-day that the condition of his father remained practically unchanged. The physicians informed him that his father was passing through a critical stage of his disease, and that every hour passed without indications of any favorable symptoms was so much progress towards recovery. The secretary's sister and her daughter arrived this morning.

Secretary Manning is a very sick man. The true cause of his sudden illness was the bursting of a small blood vessel at the base of the brain, which caused a stroke of apoplexy and the temporary paralysis of the lower limbs. It is believed he will have to leave the cabinet.

### Big Fire at Buffalo.

By Telegram to THE SENTINEL.  
BUFFALO, March 26.—The North Buffalo flour mills, the Gilbert Starch works, together with buildings on Thompson and Dearborn streets are burning fiercely and are now almost destroyed. Total loss estimated at \$500,000.

### Five Men Killed.

By Telegram to THE SENTINEL.  
GALVESTON, March 26.—A Fort Elliott special tells of a midnight fight in which three cow boys and two citizens were killed.

### Small News.

A. S. Kellogg, one of the great stereotype plate kings, died the other day in the south.

Several blocks at Salida, Col., were burned yesterday afternoon, the losses being \$150,000.

William M. Smith, a leader among the Illinois republicans, and lately a member of the railway commission, killed himself yesterday with a revolver, at his home in Lexington, on account of failing health.

In the harbor of Chicago lie nearly one hundred vessels loaded with corn for Buffalo, to which port charters are being made at 31 cents per bushel. A passenger propeller arrived yesterday from Green Bay. Experienced navigators express the belief that the straits of Mackinac will open by April 15.

The Quigley syndicate, who recently bought the Toledo, Cincinnati and St. Louis Narrow-gauge railroad, under decree of foreclosure in the United States court, have now organized the Bluffton, Kokomo & Southwestern railroad company, with a capital stock of \$4,277,500, proposing to operate and maintain the road, which, in Indiana extends from a point on the state in Adams county, through the counties of Adams, Wells, Huntington, Wabash, Miami, Grant, Howard, Clinton, Tippecanoe, Fountain, Parke and Vermillion in this state and thence through Illinois, it being the old line from Toledo, O., to St. Louis. Its length in this state is 171 miles. The directors of the new company are James M. Quigley, Robert G. Ingersoll, Sylvester H. Kneeland, Francis L. Russ and Joseph E. McDonald.

### How Fast the Hand Travels.

Somebody says he has discovered that the hand of a penman who writes thirty-five words in a minute travels over sixteen feet of space in that time, providing he dots all his Ts and crosses all his ts. It is hard to see how there can be any inflexible rule in such a matter. The hand of John Hancock in writing two scores of words must have traveled several thousand times further than the hand of the man who engraved the Declaration of Independence on the smoothed side of a fifty cent piece.—Harper's Weekly.

I was on a train once when a party of gentlemen were discussing the conductor. They said he was "knocking down." I said: "I won't say the conductor is dishonest, but he may collect \$10, put \$8 in his pocket and give \$2 to the company; and if the man does that, how is it he can go through the car without looking guilty or showing in his face that he thinks he is discovered? Why, it's because the conductor knows very well that these same men who are criticizing him the most are the very ones who try to dead-beat their way over the line. Let the passengers become honest, and there will be little left of the dishonest conductors."—Sam Jones.

### HISTORIC SPOTS.

A Bill for Survey and Preservation of Maumee Valley Forts and Battle Fields.

Senator Sherman introduced a bill in the senate yesterday to provide for a survey by the engineer corps, in co-operation with the Maumee Valley Monumental association, and an examination of each of the following named historic grounds, locations and military works in Ohio: The burial place, on Put-in-Bay island, of the sailors of the war of 1812; Fort Industry, at the mouth of Swan creek, on the Maumee river; Fort Miami, on the north and west side of the Maumee river, seven miles above Fort Industry; Fort Meigs and the burial place of the soldiers of the war of 1812, near the same, on the north and east bank of the Maumee river, ten miles above the mouth of Swan creek; a suitable portion of the battle-field of Fallen Timber, on the north and west bank of the Maumee river, four miles above Fort Meigs, where Anthony Wayne defeated the allied nations under Turkey Foot, August 20, 1794; Fort Defiance, at the confluence of the Auglaize and Maumee rivers, erected by General Wayne in 1794; Fort Wayne, at Fort Wayne, Ind., at the confluence of St. Joe and St. Mary rivers, which was erected by General Wayne in October, 1794, and cause to be made a survey and full report to congress of the location, situation and condition of the same, and the amounts of ground necessary for the proper protection and improvement of the aforesaid works, forts, battle-fields and burying places in and near the same, as well as the probable cost thereof, and the report shall be accompanied by necessary maps and drawings. The bill was referred to the committee on military affairs.

### Musical.

R. Cuttriss Warde, the eminent baritone singer and teacher is now in Fort Wayne and will at once commence his teaching. The musical people of this city will read the following with interest from the New York Courier, which considers Mr. Warde one of the few first-class instructors in the country:

"In narrating the lives of successful artists, and in reviewing the work they have accomplished, it is too often forgotten that it is not infrequently of considerable interest to make mention of what may seem trivial points in the career of the artist, together with his more illustrious characteristics. In the musical profession, and among the comparatively young but highly successful artists is Signor, better known as Mr. R. Cuttriss Warde, who has passed, with various experiences, all the many trying and pleasant epochs of a singer's life, and who is now well known throughout this country as one of the best vocal teachers in the profession. He was born in London, England, June 2, 1852, and early showed a talent for music, which he undoubtedly inherited from his mother. He is a gentleman of refined manners and possesses a sociable and generous disposition. When very young he commenced a course of careful musical training under experienced pianists, and attained a position of flattering success for one of his years. He turned his attention to vocal study when it was found that he possessed a fine voice that needed only cultivation to give him a position in the front rank of the best singers of the day, and always received the liberal support of the public press. His voice is a high baritone of extensive compass and excellent timber, and his stage presence is imposing. When he sings it is with a dramatic feeling and artistic fire that at once commend his talents to public favor. About seven years ago Mr. Warde placed himself under the tuition of Lanperti to prepare for singing in opera. That experienced teacher gave him the best possible instruction, which subsequently was of great value to him when he joined the Strakosch opera company. With this company Mr. Warde had the most flattering success, and by strict attention to the requirements of his new position acquired an extensive repertoire, including 'Lucia di Lammermoor,' 'Carmen,' 'Il Trovatore,' 'Aida,' 'Faust,' 'La Favorita,' 'Martha' and 'Pippa' in 'La Mascotte,' in which latter opera Mr. Warde has appeared over two hundred times, and is considered by the public to be the best of all Pippas. Also as Enrico his make-up was very attractive, and in the second act his rendition of the character was most excellent and original. In the oratorio of singing he is also very successful. Altogether Mr. Warde has reason to feel pride in the high position his labor and talents have bestowed upon him and which so many seek and so few find."

## HOAR!

Amuses Himself in the Senate.

He Attempts to Give the Recent Mississippi Shooting Political Significance.

A Five Hundred Thousand Dollar Fire at Buffalo—The Cincinnati Police Bill.

### WASHINGTON.

Mr. Hoar Launches Into Southern Outrages.

By Telegram to THE SENTINEL.  
WASHINGTON, March 26.—The chair laid before the senate the president's message transmitting the report of the civil service commission. Referred.

Among the bills introduced was one by Mr. Hoar providing for inquests under authority. He said the bill was suggested by the reports of recent occurrences at Carrollton, Miss. Persons defending or apologizing for them said they had no political significance. The fact remained that it was the opponents of the democratic party that were killed, and that the adherents of that party were murderers. This bill was to supply a method of inquiry which would be removed from politics. Referred to the judiciary committee.

Mr. Edmunds' resolution was then placed before the senate and Mr. Ingalls took the floor.

### WASHINGTON NOTES.

The lighthouse board has reconsidered its former action, and will maintain two lights for Michigan City harbor.

The postmaster general has informed the senate that during the first year of the democratic administration 3,615 fourth class postmasters were removed.

President Cleveland is said to have offered to General McClelland the governorship of Utah, which was declined because of insufficient salary—\$2,600 per annum.

### Quiet at Brussels.

By Cable to THE SENTINEL.  
BRUSSELS, March 26.—A mob of strikers marched to-day to the palace of King Leopold and sang the "Marseillaise." Beyond this they created no disturbance. A few arrests were made for disorderly conduct.

### A New Law for Cincinnati.

COLUMBUS, Ohio, March 26.—The senate to-day passed a non-partisan bill for Cincinnati, and it is now a law. It gives the governor power to appoint a police board of four members.

### Atherton Ill.

By Telegram to THE SENTINEL.  
COLUMBUS, O., March 26.—Ex-Congressman Gibson H. Atherton, of Newark, was stricken with paralysis last evening. His condition last night was critical.

### A Hanging Bee.

By Telegram to THE SENTINEL.  
CHICAGO, March 26.—Frank Mulko-wiski, who brutal murdered Mrs. Agnes Kleczek last August, was hanged in the county jail yard in this city at 12:16 this afternoon.

### Gladstone Improved.

By Cable to THE SENTINEL.  
LONDON, March 26.—Gladstone's condition is very much improved to-day. Gladstone and all the members attended a cabinet meeting this afternoon. The session lasted an hour and a quarter. He expects to state his Irish policy to the house of commons on April 8.

### JAMES OWEN.

The Tragedian Enlarges His Fort Wayne Experience.

"James Owen O'Connor is a son of a deceased millionaire, a relative of the late Hon. Charles O'Connor, and is himself the possessor of a handsome fortune. He labors under the delusion that he is an 'eminent tragedian,' and, having the means to do so, hires a company and 'stars' through the country. While here he sent a telegram to the New York Clipper which contained a glowing account of his historic triumph at Fort Wayne. This accounts for the laudatory press notices which deceived Manager Emerick and the Knights of Pythias committee into believing he was an actor of prominence. The Knights of Pythias felt as much disgusted over the affair as those who were unfortunate enough to be present at the performance," says the Peru Sentinel.

The Iowa senate has passed a bill making drunkenness a misdemeanor, punishable with severe penalties.

# STRONG STATEMENTS.

Rev. S. H. Troyer, of New Albany, Ind., states as follows how he saved himself from an attack which threatened serious results:

"On the 7th of June, 1884, I was taken with rheumatic fever, and for five weeks was not free from it. It then settled in my left foot, where it remained for about four weeks. Then it moved to my hips, shoulders, neck and collar bone, where it stayed until driven out by Athlaphoras. Previous to the use of that remedy I had tried the skill of five physicians, from whom I obtained no relief. Then I resorted to the use of different remedies external and internal, but I continued to grow worse all the time until the 1st of October, when my druggist recommended Athlaphoras. I had but little faith when I took the first bottle. At this time I was so helpless that my wife had to dress me, wash my face and assist me out of bed. I could not sleep more than from thirty to forty-five minutes at a time, so intense was my pain.

"My first dose of Athlaphoras was taken at two o'clock in the afternoon, and I took two more soon after. The first dose gave me much relief, and the second eased me so greatly that I was enabled to talk freely and with comfort to my family and friends. The third dose enabled me to sleep four and a half hours without waking. I continued the use of Athlaphoras until fourteen bottles in all had been taken. By this time my health was so much improved that I left off the medicine. That was in December, 1884, and I am now quite well."

Rev. Wm. Cool, of Denver, Ind., says: "I used only one bottle of Athlaphoras, and I think it a good medicine. I consider that I derived much benefit from it."

"Athlaphoras," says Mr. D. P. Sheets, of Mooresville, Ind., "gave me great satisfaction in a case of neuralgia, and I can heartily recommend it to others as doing all that is claimed for it."

Mr. J. A. Wilson, the photographer of New Albany, Ind., whose offices are at Nos. 6 and 8 Main street, tells of one of these cases. His story follows:

"I had rheumatism but it disappeared after using only one bottle of Athlaphoras. It was in my arms and I had sharp, shooting pains. I was suffering and complaining a good deal when a friend, coming into my gallery one morning, asked me what the trouble was. I said it was rheumatism. He told me of Athlaphoras as a cure for neuralgia and rheumatism, and it struck me very forcibly, as it did not claim to cure every complaint that flesh is heir to. I bought a bottle on the strength of what he said. That was all I needed. I used the one bottle over six months ago, and have not had one ache or pain from rheumatism since."

Mr. Hiram F. Sides, of Fort Branch, Ind., says of his wife's cure:

"Her suffering from neuralgia was intense, and we concluded to try Athlaphoras. Almost from the first dose I could see that she was improving, and two bottles effected a permanent cure, so that she feels no effects of her once dreaded disease. I tried it for rheumatism and soon found relief, one bottle curing me. I shall take great pleasure in recommending Athlaphoras to my neighbors."

If you cannot get ATHLAPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be misled by trying something else, but order at once from us as directed. ATHLAPHOROS CO., 112 Wall Street, New York.

OFFICIAL PAPER COUNTY AND CITY.

FRIDAY, MARCH 26, 1886.

A LONDON correspondent of the San Francisco Argonaut writes that all other correspondents who speak of the Prince of Wales as "Tum-Tum," or "Tum," only show their deplorable ignorance. "Now, as a matter of fact," he says, "the Prince is called 'Tummy'—that is the pet name he goes by. The name is not a chance appellation, applied without either rhyme, reason, or meaning. It is a childish and playful reference to his Royal Highness' stomach, the rotundity of which is one of his most striking features."

THE SPIRIT, a four-page monthly published in Utica—size, two by three inches—has the following sound editorial: "School Discipline.—To keep a boy after school is very bad for his health, as he does not get enough outdoor exercise. After awhile he becomes morbid, then runs away from home, and ends by committing suicide, which is sometimes very bad for the constitution. Moral.—Don't keep boys after school. P. S.—The editors of this paper never get kept after school, but say this out of pity for those who do."

A YOUNG woman of Columbus, Georgia, about to visit the generating station of the electric light company, was told to leave her watch at home, lest it be magnetized by the strong electric current. She did so, but complained afterward that her watch would not keep good time. She sent it to a jeweler, but he reported that it was not magnetized and kept good time. Still, whenever she carried it her time was too slow, although when she left it in her room it ran correctly. A gentleman who knew of the circumstances suggested to the young lady that she wear another pair of corsets when next she carried the watch. She did so, and had no further trouble with the watch. The steel springs in her corset had been magnetized.

The Charlotte (N. C.) Observer of recent date published a column interview by its Washington correspondent with Junius Lynch Clemmons, Clerk of the River and Harbor Committee of the House of Representatives, who asserts that he is the original inventor of the electric telegraph. Mr. Clemmons says that he invented the system in 1835, and communicated his discovery to a Mr. Page, who was in the Patent Office, and who had become eminent as an electrician. Page did not answer the letter, and eleven years after took out a patent on the discovery, and associated Morse and Amos Kendall with him. The company applied to Congress for aid to develop the discovery, and the world knows the result. Clemmons claims only the original invention, but gives Morse credit for its development. He concludes the interview as follows: "I would not pluck a single leaf from the laurel that circled Morse's brow, or drop a word that would reflect upon his memory." The letter is published as a vindication of the truth of history.

EVERYBODY who has seen the Hon. William M. Everts, of New York, will remember his cadaverous appearance, for, although above the medium in height, he will not weigh to exceed 110 pounds. One of the Senate doorkeepers says a few days ago a solid, substantial-looking farmer, from the interior of New York State, seated himself in the gentlemen's gallery and asked to leave Mr. Everts pointed out to him. It was at the hour of noon and only a few members were in the Chamber. Pretty soon Dan Voorhees emerged from the cloak-room and strode majestically to his seat. "Is that Everts?" exclaimed the old man enthusiastically. "No," said the doorkeeper, "that is Mr. Voorhees, of Indiana." When Gen. Logan a few minutes later entered the Chamber and deposited an armful of books upon his desk, the old man clutched the doorkeeper excitedly and said: "That's him—that's the great Mr. Everts, ain't it?" Again the doorkeeper explained his error. When Mr. Everts did enter, the old man looked at him long and earnestly. "By gosh!" said he, in a commencing tone, "I'll bet he boards."

A KENTUCKY farmer moving to Kansas chartered a box-car, into which he put eight horses, with his two sons and a dog to look after them. The boys had comfortable quarters in one end of the car, and as there was plenty of room, the thrifty old farmer put in two bee-hives. As they were jolting along the bees got warmed up, and came out to inquire what it all meant. The response of the boys and the dog was as lively as possible. All made for the door, the boys yelling to stop the train and fighting the bees with their hats. The dog was first out, yelping and howling, and the others came tumbling after. By the time the conductor got the train stopped, and help arrived, the bees were out in full force and furiously mad. It was only after a pitched battle that the hives were removed and the horses saved. Some of the bees got into the passenger coaches, where they made things lively and warm for the passengers, but after a hard fight they were vanquished.

ALFRED TENNYSON, poet and peer, is described in a London letter as "tall and slightly bent by the seventy-five winters that have also left their mark upon his whitened hair and beard, both of which are long and flowing. His eyes are large, dark, and dreamy. His manners are shy and awkward—the result of long seclusion from the world. He wears a suit of badly-fitting gray clothes, a loose, turned-down collar, a carelessly tied cravat, and low, wide shoes, made more for comfort than beauty. He speaks slowly and with great deliberation, in a dull, rolling Saxon accent, which might be called provincial, but his words are well chosen and his language refined, plainly showing that he is a college man and a student of many languages." He told his visitor that he once hoped to visit America, and for one purpose only, that was to visit the grave of Poe, of whom he said: "No poet, certainly no modern poet, was so susceptible to the impression of beauty as Poe. He had all the Greek's appreciation of beauty and much of their power of expressing it in poetry."

"Throw Physic to the Dogs" when it is the old-fashioned blue mass, blue pill sort, and insist on using Dr. Pierce's "Pleasant Purgative Pellets," a modern medical luxury, being small, sugar-coated granules, containing the active principles of certain roots and herbs, and which will be found to contain as much cathartic power as any of the old-fashioned, larger pills, without the latter's violent, drastic effects. The pellets operate thoroughly but harmlessly, establishing a permanently healthy action of the stomach and bowels, and as an anti-bilious remedy are unequalled.

### THE Y. M. C. A.

The Meeting Last Night—Secretary More is Remembered Nicely.

The city Y. M. C. A. met last evening at the parlors of the railroad department. The constitution as adopted at the previous meeting was read, and signed by a large number of earnest christian workers, as charter members of the new association. A committee on by-laws was appointed and the general interests of the work fully discussed. Adjournment was made for two weeks to enable the president to select the proper working committees, and at that meeting it will be decided what the extent of the future work will be.

Mr. A. J. Tyler was chosen treasurer of the city association by a unanimous vote. He will make a splendid officer and promote the cause.

The Railroad Y. M. C. A. has shown its appreciation of the labors of its retiring general secretary, D. F. More, by presenting him with a beautiful badge. The badge is of finest gold. The device is a shield beneath a scroll to which it is attached by a ring. The name "D. F. More" is inscribed on the scroll, and on the shield the monogram of the Y. M. C. A., and on the reverse side of the shield are the words, "Presented by the R. R. Y. M. C. A., March, 1886." The following correspondence explains itself:

FORT WAYNE, Ind., March 24.  
D. F. More, Esq., Retiring General Secretary  
Fort Wayne:

DEAR SIR—It affords us great pleasure as an association to present to you this badge as a token of the high esteem in which you are held. Recognizing the faithful service rendered by you, we esteem it a privilege to bid you God-speed in your new and higher field of action, and trust that the badge may be to you a reminder of the well wishes you leave behind. Your work here will be a permanent and enduring monument to your memory, and you will long be remembered as having accomplished much for the good of your fellow-man. May God continue to bless your efforts.

Sincerely yours,  
C. H. Newton, Rec. Sec'y.

For the Association,  
To the Officers and Members of the Fort Wayne R. R. Y. M. C. A.

BROTHERS—Accept my strongest possible assurance of my appreciation of the esteem which has led you to bestow upon me the beautiful gold badge, which I have just accepted at the hands of your recording secretary. I shall always prize it among the most precious of my possessions, not only because of its value and beauty, but as an expression of your friendship and esteem.

sion of your friendship and esteem. We have been co-laborers in the good work, in the success of which we all rejoice. My labors have only been a part, and not a large part of the effects which have brought this success. There has been success because you have had a mind to work, and because every hour, dark or bright, you have been united. This beautiful badge shall ever be a reminder of your virtue and faithfulness and serve to keep alive in my heart the sincere and brotherly affection which I have entertained for you all. Wherever in the future I may wander or work, I shall carry with me pleasant recollections of my sojourn with you and a deep and prayerful interest in the membership and work of the R. R. Y. M. C. A. of Fort Wayne. Yours sincerely and fraternally,  
D. F. MORE.

## A HALT!

Master Workman Powderly is Aroused.

He Orders a Cessation of Strikes, Boy-

cotts, and the Inauguration

of New Unions,

And Harsh Condemnation Against Drag-  
ging Politics and Politicians  
Into the Knighthood.

### A GENERAL

Strike is Threatened Over the  
United States.

By Telegram to THE SENTINEL.

St. Louis, March 26.—Chairman Mur-  
tin Irons says the strike will probably  
extend throughout the whole United  
States. Not only railroad employees will  
be called out, but an order will go out to  
all Knights of Labor in the country re-  
gardless of occupations. The Knights of  
Labor must be recognized. The order  
will be given, if matters are not settled  
within a few days.

### POWDERLY'S MANIFESTO.

St. Louis, March 26.—General Master  
Workman Powderly has issued a secret  
circular to the Knights of Labor of  
America which has just been made pub-  
lic. The address opens with an order to  
cease initiating new members until the  
relations of capital and labor shall be-  
come less strained than at present. He  
says it is not fair to the older assemblies  
to bring in new members, pick up their  
quarrels as soon as organized and have  
them export pecuniary aid. He warns  
against useless strikes saying: "You  
must submit to injustice in patience for  
awhile longer." He cautions against re-  
ceiving in their ranks employers and  
warns Knights that the politician is  
planning night and day how to catch the  
Knights of Labor for the advantages of  
himself and party and adds that to use  
the name of the order in a political con-  
test is criminal and must not occur again.  
He says no order will be issued to strike  
for the eight hour system May 1.

He continues: "While I write a dis-  
patch is handed me in which I read  
these words: 'They discharged our  
brother and we struck, for you know our  
motto is, 'an injury to one is the concern  
of all'. Yes, an injury to one is the con-  
cern of all, but it is not wise to injure all  
for the sake of one. It would have been  
far better to continue work and properly  
investigate that matter, bringing it be-  
fore every known tribunal than to have  
struck.' In conclusion the master  
workman says: "One of two things  
must take place, either the local and dis-  
trict assemblies of the order must obey its  
laws or I must be permitted to resign  
from a position which obliges me to play  
one part before the public and another  
to our members. I say to the world:  
'Knights of Labor do not approve of  
or encourage strikes,' and in one day  
dispatches come to me to come to Troy,  
N. Y.; Manchester, N. H.; Chicago,  
Cincinnati, Lynchburg, Va., Spring-  
field, Mo., and Montreal. It is impos-  
sible for a humane nature to stand the  
strain any longer. I must have the as-  
sistance of the order or my most earnest  
efforts will fail. Will I have it? If so,  
strikes must be avoided, boycotts must  
be avoided. No move must be made  
until the court of last ses-  
sion has been appealed to.  
Threats of violence must not be made,  
politicians must be hushed up or driven  
out, and obedience to the laws of knight-  
hood must have preference over those of  
any other order. If these things are  
done, the next five years will witness a  
complete emancipation of mankind from  
the claws of monopoly. In our mem-  
bers we require secrecy, obedience, resis-  
tance, patience and courage."

### WABASH SWITCHMEN STRIKE.

The switchmen at the Wabash yards  
have struck, being ordered out by the  
Knights of Labor.

### TROUBLE AT EAST ST. LOUIS.

At East St. Louis the yardmasters of  
the different roads have been attempting  
to make up and start out freight trains  
but have in every instance, been pro-  
vented by the striking switchmen. The  
coupling pins are removed, switches re-  
versed, trains run upon the wrong  
tracks, and in some instances the yard  
masters have been forcibly restrained.

### A PORTER FOR FORT WAYNE.

The Knights of Labor at Toledo, Ohio,  
who had planned to place a special ticket  
for city officers in the field, received a

letter Thursday night from Grand Mas-  
ter Workman Powderly, warning them  
to drop politics at once, or they would  
be expelled from the order.

### A TRAIN STARTS.

St. Louis, Mo., March 26.—The Mis-  
souri Pacific officials, with the aid of a  
large police force, succeeded in starting  
a freight train of eighteen cars.

### TROUBLE EXPECTED.

El Paso, Texas, March 26.—Trouble is  
again brewing among the brakemen and  
other freight employees of the Southern  
Pacific. Another strike may result any  
day.

### STRIKE AT BROOKLYN.

New York, March 26.—The employes  
of the Brooklyn Broadway street car lines  
struck this afternoon.

### TRAIN DITCHED.

St. Louis, March 26.—At Pacific  
Missouri, about fifty miles distant, an  
accommodation train was ditched by the  
strikers this morning. No particulars  
have been received. An engine and  
tender carrying twenty-five detectives  
with Winchester rifles has been de-  
spatched thither in anticipation of a  
conflict between the authorities and the  
strikers when the freight train sent from  
here shall reach that place. Officials of  
the Vandalia and Burlington railroads  
succeeded in sending out two freight trains  
this afternoon.

Specials say the Missouri Pacific offi-  
cials have succeeded in starting freight  
trains in several instances without inter-  
ference.

### FRIGHTFUL OUTRAGE.

Mrs. John L. Boshet Brutally  
Outraged by a Negro.

This morning a brutal looking negro  
called at the residence of John L. Boshet,  
in Abbot township, and, addressing Mrs.  
Boshet, inquired if another negro worked  
about there. She had scarcely replied in  
the negative when the fellow seized  
and most foully outraged the lady. Her  
husband and son were absent at work  
for a neighbor, and the smothered cries  
of the woman were unheard while the  
scoundrel accomplished his purpose.

The black fiend fled the premises after  
threatening Mrs. Boshet's life and for a  
few moments hovered about the house  
to intimidate her. As soon as she dared,  
Mrs. Boshet called her husband and the  
neighborhood was aroused. Quicker,  
almost, than it takes to tell it, a mes-  
senger was sent to the sheriff's office here  
and a posse of armed farmers were scour-  
ing the country in search of the fugitive,  
who will be lynched by the enraged popu-  
lace if caught.

The outrage was committed about 9  
o'clock and the negro had two hours the  
start of his pursuers.

### SOROSIS' PRESIDENT.

A Cultivated Woman and a Weat-  
hly and Successful Farmer.

PHILADELPHIA, March 16.—At the annual  
election day in March, Sorosis, the famous  
ladies' club of New York, departed from its  
usual custom and changed its president  
Jenny June Croly had been the graceful and  
efficient presiding officer for ten years pre-  
vious. Sorosis clings to good officers whom it  
finds them.

The lady who takes Mrs. Croly's place is  
Mrs. M. Louise Thomas. She is one whom it  
is richly worth while to know about.  
She is a fine, dignified-looking woman, with  
dark hair and eyes. She looks about 50 years  
of age.

When asked for a sketch of her life, Mrs.  
Thomas replied:

"I never did anything worth telling, and I  
never wrote anything worth reading. I  
have tried to do both, to be faithful, and  
I know I am industrious and persevering,  
and love animals and nature and humanity,  
but, now, I am going to dissect myself and  
lay all this before the world." However,  
Mrs. Thomas said, a friend of this strong, gentle woman,  
has written an admirable sketch of her, from  
which I have gathered a few facts. She quite  
understands herself in saying she never did  
anything worth while. Mrs. Thomas is best  
known to a large circle as a successful book-  
keeper. Her husband, Rev. Abel C. Thomas,  
was a minister of the Universalist denomination,  
and she herself is a forceful and interest-  
ing speaker and enthusiastic worker among  
the Universalists.

Mrs. Thomas accompanied her husband  
and shared his toils and fortunes in many  
fields of labor. During the war she worked  
unremittingly for the sick and wounded sol-  
diers in the hospitals of this city. In this  
time she wrote thousands of letters for them  
with her own hand. The close of the war  
found both herself and her husband broken  
in health. They retired to a farm, hoping to  
find in country life a fountain of rejuvena-  
tion. They finally bought a farm at Tacony,  
on the Delaware, just above this city. Here  
a living had to be made, and made out of  
the land.

Mrs. Thomas set herself to this task. She  
made the acquaintance of her neighbors, ex-  
amined their crops, their stock and herds and  
studied their methods. From the first she had  
the whole management of the farm. Her hus-  
band was an invalid and died some years ago.  
The lady whom Sorosis has just selected for  
its head is a most successful business woman.  
She not only learned how to make a living  
out of the farm, but she has, entirely by her own  
efforts, laid up a handsome competency. The  
secret of it all is that whatever she undertook  
she did not rest until she learned to do it a  
little better than anybody else. She sells  
honey and bees and butter and berries and  
eggs and other products of her farm. She is  
said to have one of the finest small herds  
of full-blooded Jersey cattle in the  
country. They commanded high prices  
when sold. She has large and lucrative  
poultry yards, also. Her country home, on  
the Delaware, is lovely and hospitable. In  
the winter Mrs. Thomas is mostly at her  
other home, at Fordham, in the edge of New  
York city. Strangers to say, although she has  
been so successful in rural pursuits, she never  
lived in the country at all before she took her  
farm. It shows what brains and perseverance  
can do.

### A Fishing Poem.

"Again the vernal equinox is drawing near a  
focus.  
And the bullfrog and the blizzard will trade  
places on the bog.  
And the crocus and the locust will begin their  
house poems,  
And the gentle goddess Ceres will be lying  
round meow.  
Soon again the weary merchant will buy off a  
day for fishing.  
And with grub, grub, grub and tackle will set  
forth at dawn of day,  
But in spite of all his efforts and his utmost  
wishing wishing,  
He will only carry homeward what the Jugg  
first took away."

### CHARLES McCHUGH.

The above poem was written and dedi-  
cated to Joseph M. Clark, the renowned  
West lake and Barbers lake fisherman,  
and is wonderfully true to life.

No bad effect; no poison in Red Stag  
Cough Cure. It is a safe, sure cure.

Rumors of His Successor Are Circu-  
lated—Mr. Manning's Al-  
lignment is Described.

### SECRETARY MANNING.

He is no Better To-day—Talk of  
His Successor.

By Telegram to THE SENTINEL.  
WASHINGTON, March 26.—Dr. Hamil-  
ton said to-day he was certain that Mr.  
Manning's condition showed no improve-  
ment since yesterday.

Rumors regarding a change in the  
treasury department arise, probably  
from the almost general impression that  
Mr. Manning will never resume his du-  
ties of that office, even in event of his  
complete restoration to health.

WASHINGTON, March 26.—The son of  
secretary Manning said at eleven o'clock  
to-day that the condition of his father  
remained practically unchanged. The  
physicians informed him that his father  
was passing through a critical stage of  
his disease, and that every hour passed  
without indications of unfavorable symp-  
toms was so much progress towards re-  
covery. The secretary's sister and her  
daughter arrived this morning.

Secretary Manning is a very sick man.  
The true cause of his sudden illness was  
the bursting of a small blood vessel at  
the base of the brain, which caused a  
stroke of apoplexy and the temporary  
paralysis of the lower limbs. It is be-  
lieved he will have to leave the cabinet.

### Big Fire at Buffalo.

By Telegram to THE SENTINEL.  
BUFFALO, March 26.—The North Bu-  
falo flour mills, the Gilbert Starch works,  
together with buildings on Thompson  
and Dearborn streets are burning  
fiercely and are now almost destroyed.  
Total loss estimated at \$300,000.

### Five Men Killed.

By Telegram to THE SENTINEL.  
GALVESTON, March 26.—A Fort Elliott  
special tells of a midnight fight in which  
three cow boys and two citizens were  
killed.

### Small News.

A. S. Kellogg, one of the great stereo-  
type plate kings, died the other day in  
the south.

Several blocks at Salida, Col., were  
burned yesterday afternoon, the losses  
being \$150,000.

William M. Smith, a leader among  
the Illinois republicans, and lately a  
member of the railway commission,  
killed himself yesterday with a revolver,  
at his home in Lexington, on account of  
failing health.

In the harbor of Chicago lie nearly one  
hundred vessels loaded with corn for  
Buffalo, to which port charters are being  
made at 31 cents per bushel. A passen-  
ger steamer arrived yesterday from  
Green Bay. Experienced navigators ex-  
press the belief that the straits of Mack-  
inac will open by April 15.

The Quincy syndicate, who recently  
bought the Toledo, Cincinnati and St.  
Louis narrow-gauge railroad, under de-  
cree of foreclosure in the United States  
court, have now organized the Bluffton,  
Kokomo & Northwestern railroad com-  
pany, with a capital stock of \$4,277,500,  
proposing to operate and maintain the  
road, which, in Indiana extends from a  
point on the state in Adams county,  
through the counties of Adams, Wain,  
Huntington, Wabash, Miami, Grant,  
Howard, Clinton, Tippecanoe, Fountain,  
Parker and Vermillion in this state and  
thence through Illinois, it being the old  
line from Toledo, O., to St. Louis.

Its length in this state is 171 miles. The  
directors of the new company are James  
M. Knigley, Robert G. Ingersoll, Syl-  
vester H. Kneeland, Francis L. Rias  
and Joseph E. McDonald.

How Fast the Hand Travels.

Somebody says he has discovered that the  
hand of a penman who writes thirty-five  
words in a minute travels over sixteen feet of  
space in that time, providing he does all his  
writing in one line. It is hard to see  
how there can be any inferiority in such a  
matter. The hand of John Hancock in writ-  
ing two or three words must have traveled  
several thousand times further than the hand  
of the man who engraved the Declaration of  
Independence on the smoothed side of a fifty  
cent piece.—Harper's Weekly.

I was on a train once when a party of gen-  
tlemen were discussing the conductor. They  
said he was "knocking down" I said: "I  
won't say the conductor is dishonest, but he  
may collect \$10, put \$3 in his pocket and give  
\$3 to the company; and if the man does that,  
how is it he can go through the car without  
looking guilty or showing in his face that he  
thinks he is discovered? Why, it's because  
the conductor knows very well that these  
gentlemen who are criticizing him the most  
are the very ones who try to cheat him out of  
money over the line. Let the passengers be-  
come honest, and there will be little left of  
the dishonest conductors."—Sam Jones.

### HISTORIC SPOTS.

A Bill for Survey and Preserva-  
tion of Maumee Valley  
Forts and Battle  
Fields.

Senator Sherman introduced a bill in  
the senate yesterday to provide for a sur-  
vey by the engineer corps, in co-opera-  
tion with the Maumee Valley Monu-  
mental association, and an examination  
of each of the following named historic  
grounds, locations and military works in  
Ohio: The burial place, on Put-in-Bay  
island, of the sailors of the war of 1812;  
Fort Industry, at the mouth of Swan  
creek, on the Maumee river; Fort Miami,  
on the north and west side of the Maumee  
river, seven miles above Fort Industry;  
Fort Meigs and the burial  
place of the soldiers of the war of 1812,  
near the same, on the north and east  
bank of the Maumee river, ten miles  
above the mouth of Swan creek; a suit-  
able portion of the battle-field of Fallen  
Timber, on the north and west bank of

condition of the same, and the amount

protection and improvement of the aforesaid  
works, forts, battle-fields and burying  
places in and near the same, as well as  
the probable cost thereof, and the re-

### Musical.

R. Cutler Ward, the eminent bar-  
itone singer and teacher is now in Fort  
Wayne and will at once commence his  
teaching. The musical people of this  
city will read the following with interest  
from the New York Courier, which con-  
siders Mr. Ward one of the few first-  
class instructors in the country:

"In nurturing the lives of successful  
artists, and in reviewing the work they  
have accomplished, it is too often forgot-  
ten that it is not infrequently of consid-  
erable interest to make mention of what  
may seem trivial points in the career  
of the artist, together with his more il-  
lustrous characteristics. In the musical  
profession, and among the comparatively  
young but highly successful artists is  
Signor, better known as Mr. R. Cutler  
Ward, who has passed, with various ex-  
periences, all the many trying and pleas-  
ant epochs of a singer's life, and who is  
now well known throughout this country  
as one of the best vocal teachers in the  
profession. He was born in London,  
England, June 2, 1852, and early showed  
a talent for music, which he undoubtedly  
inherited from his mother. He is a gen-  
tleman of refined manners and possesses  
a sociable and generous disposition.  
When very young he commenced a  
course of careful musical training under  
experienced pianists, and attained a po-  
sition of flattering success for one of his  
years. He turned his attention to vocal  
study when it was found that he pos-  
sessed a fine voice that needed only cul-  
tivation to give him a position in the  
front rank of the best singers of the day,  
and always received the liberal support  
of the public press. His voice is a high  
baritone of extensive compass and excel-  
lent feeling and artistic fire that at once  
command his talents to public favor.  
About seven years ago Mr. Ward placed  
himself under the tuition of Lamperti to  
prepare for singing in opera. That ex-  
perienced teacher gave him the best pos-  
sible instruction, which subsequently  
was of great value to him when he joined  
the Strakoski opera company. With this  
company Mr. Ward was most success-  
ful; success, and by strict attention to  
the requirements of his new position ac-  
quired an extensive repertoire, including  
'L'incis di Lammertino,' 'Carmen,' 'Il  
Trovatore,' 'Aida,' 'Faust,' 'La Fa-  
vorita,' 'Martha' and 'Pippa' in 'La  
Alascolle,' in which latter opera Mr.  
Ward has appeared over two hundred  
times, and is considered by the public to  
be the best of all Pippas. Also in 'L'incis  
his make-up was very attractive, and in  
the second act his rendition of the char-  
acter was most excellent and original. In  
the oratorio of singing he is also very  
successful. Altogether Mr. Ward has  
reason to feel pride in the high position  
his labor and talents have bestowed upon  
him and which so many seek and so few  
find."

### WASHINGTON.

Mr. Hoar Launches Into South-  
ern Outrages.

By Telegram to THE SENTINEL.  
WASHINGTON, March 26.—The chair  
laid before the senate the president's  
message transmitting the report of the  
civil service commission. Referred.

Among the bills introduced was one  
by Mr. Hoar providing for inquests un-  
der authority. He said the bill was sug-  
gested by the reports of recent occur-  
rences at Carrollton, Miss. Persons  
defending or apologizing for them said  
they had no political significance. The  
fact remained that it was the opponents  
of the democratic party that were killed,  
and that the adherents of that party  
were murderers. This bill was to sup-  
ply a method of inquiry which would be  
removed from politics. Referred to the  
judiciary committee.

Mr. Edmunds' resolution was then  
placed before the senate and Mr. Ingalls  
took the floor.

### WASHINGTON NOTES.

### JAMES OWEN.

The Tragedian Enlarges His Fort  
Wayne Experience.

"James Owen O'Connor is a son of a  
deceased millionaire, a relative of the  
late Hon. Charles O'Connor, and is him-  
self the possessor of a handsome fortune.  
He labors under the delusion that he is  
an 'eminent tragedian,' and, having the  
means to do so, hires a company and  
'stars' through the country. While here  
he sent a telegram to the New York  
Clipper which contained a glowing ac-  
count of his histrionic triumph at Fort  
Wayne. This accounts for the laudatory  
press notices which deceived Manager  
Emrick and the Knights of Pythias  
committee into believing he was an actor  
of prominence. The Knights of Pythias  
[?] as much disgusted over the affair as  
those who were unfortunate enough to be  
present at the performance," says the  
Peru Sentinel.

The Meeting Last Night—Secretary More is Remembered Nicely.

The city Y. M. C. A. met last evening at the parlors of the railroad department. The constitution as adopted at the previous meeting was read, and signed by a large number of earnest christian workers, as charter members of the new association. A committee on by-laws was appointed and the general interests of the work fully discussed. Adjournment was made for two weeks to enable the president to select the proper working committees, and at that meeting it will be decided what the extent of the future work will be.

Mr. A. J. Tyler was chosen treasurer of the city association by a unanimous vote. He will make a splendid officer and promote the cause.

The Railroad Y. M. C. A. has shown its appreciation of the labors of its retiring general secretary, D. F. More, by presenting him with a beautiful badge.

The badge is of finest gold. The device is a shield beneath a scroll to which it is attached by a ring. The name "D. F. More" is inscribed on the scroll, and on the shield the monogram of the Y. M. C. A., and on the reverse side of the shield are the words, "Presented by the R. R. Y. M. C. A., March, 1886." The following correspondence explains itself:

FORT WAYNE, Ind., March 24. D. F. More, Esq., Retiring General Secretary Fort Wayne:

DEAR SIR—It affords us great pleasure as an association to present to you this badge as a token of the high esteem in which you are held. Recognizing the faithful service rendered by you, we esteem it a privilege to bid you God-speed in your new and higher field of action, and trust that the badge may be to you a reminder of the well wishes you leave behind. Your work here will be a permanent and enduring monument to your memory, and you will long be remembered as having accomplished much for the good of your fellow-man. May God continue to bless your efforts.

Sincerely yours, C. H. Newton, Rec. Sec'y. For the Association.

To the Officers and Members of the Fort Wayne R. R. Y. M. C. A.

BROTHER—Accept my strongest possible assurance of my appreciation of the esteem which has led you to bestow upon me the beautiful gold badge, which I have just accepted at the hands of your recording secretary. I shall always prize it among the most precious of my possessions, not only because of its value and beauty, but as an expression of your friendship and esteem.

We have been co-laborers in the good work, in the success of which we all rejoice. My labors have only been a part, and not a large part of the effects which have brought this success. There has been success because you have had a mind to work, and because every hour, dark or bright, you have been united. This beautiful badge shall ever be a reminder of your virtue and faithfulness and serve to keep alive in my heart the sincere and brotherly affection which I have entertained for you all. Wherever in the future I may wander or work, I shall carry with me pleasant recollections of my sojourn with you and a deep and prayerful interest in the membership and work of the R. R. Y. M. C. A. of Fort Wayne.

Yours sincerely and fraternally, D. F. More.
